DAILY NEVADA STATE JOURNAL.

VOL. 21. RENO, WASHOE COUNTY, NEVADA. FRIDAY MORNING, AUGUST 22, 1884. NO. 122.

RAILROAD NOTES.

The amount of money paid for riding on railway cars in this country during 1883 aggregated almost exactly $4 for each inhabitant.

The net earnings of all roads in 1883 were $336,000,000, 4⅓ per cent. on the investment. Less than one-third of this sum went for dividends.

In the past half dozen years about $100,000,000 has been expended in new railroads in Colorado. Practically all of them are unproductive of net earnings.

The gross earnings of all roads in 1883 were $823,000,000, $53,000,000 more than in 1882; $550,000,000 was from freight, and $215,000,000 from passengers.

In 1830 there were 23 miles of railroad in operation in this country; in 1840, 2,818; in 1850, 9,000; in 1860, 30,000; in 1870, 52,000; in 1880, 92,000, and in 1884, 120,000.

The longest train ever known to have been drawn by one engine was by a locomotive on the Northern Central, in Pennsylvania—183 empty freight cars, one loaded, two cabooses, and a dead engine up grade. This train was a mile and a quarter long.

If the engines, passenger and freight cars of the United States were placed in line they would reach 5,400 miles, or form one solid train from New York to San Francisco, with lateral trains reaching from Chicago to St. Paul, to New Orleans and Washington, D. C.

Massachusetts leads all States in passenger traffic, her roads carrying 53,000,000 persons last year; Pennsylvania is second with 50,000,000; New York third with 44,000,000, exclusive of elevated roads in New York City; Illinois fourth, with 25,000,000; New Jersey fifth, and Ohio sixth.

There are 17,900 passenger cars in the country; 5,950 baggage, mail and express cars, and 750,000 freight cars. Nearly one-fourth of the freight cars, or 170,000, are owned in Pennsylvania; 100,000 in New York, 88,000 in Ohio, 76,000 in Illinois. Pennsylvania leads in locomotives also, having 3,345; New York, 2,600; Illinois, 2,400; Ohio, 2,390, and Indiana, 1,200. These five States have one half of all the locomotives in the country.

Four hundred millions of tons of freight were transported by the roads of the United States during 1883, the average charge being 1¼ cents per ton per mile. The average charge was 1.70 cents in New England, 1.04 cents in the Middle States, 1.78 cents in the South, 1.23 cents in the Western States, and 2.20 cents on the Pacific Slope.

Illinois still leads all other States in miles of railway, having 12,882 miles. Ohio is second with 9,000 miles, New York third with 7,230, Pennsylvania fourth, Indiana fifth, Missouri sixth, Wisconsin seventh, Texas eighth, Minnesota ninth. There are 16,041 miles of track in Illinois, 11,405 in Ohio, 11,254 in New York, 10,966 in Pennsylvania. Michigan has a greater number of miles of side tracks and second tracks than any other State in proportion to number of miles of main line.

Pennsylvania leads all other States in the amount of freight handled by railroad. During 1883 for every inhabitant of that State her roads carried twenty-five tons of freight. In the West the average is seven and a half tons per inhabitant, and in the South only two tons. Pennsylvania's tonnage was more than one quarter of the total of the United States, or 105,000,000; New York comes second with 50,000,000; Ohio third with 43,000,000, Illinois fourth with 35,000,000. New Jersey is fifth and Indiana sixth. The Pennsylvania Railroad alone carried more than one-third of the tonnage in Pennsylvania.

FOR PRESIDENT.

JAS. G. BLAINE,

OF MAINE.

FOR VICE PRESIDENT.

JOHN A. LOGAN.

OF ILLINOIS.

MRS. PARNELL'S MISSION.

A cock and bull story is telegraphed from Boston to the effect that Mrs. Parnell, the mother of the Irish leader, is in that city endeavoring to carry out a scheme for the importation of articles of exclusively Irish manufacture free of duty, and that she makes the proposition on behalf of her son that the political party in America which will favor such a policy will secure the entire Irish American vote. The story is too absurd for a moment's entertainment. Mr. Parnell has too much sense to make such a proposal, which simply means that the Irish American vote shall be put up for sale to the highest bidder, and he is to be the auctioneer. The suggestion in itself is an insult to that class of our citizens, who although abounding in love for their mother country, have too much pride of citizenship to make it subject of barter in any cause. The story will no doubt be exploded promptly. That the venerable mother of the Irish patriot should be in this country as a missionary in the cause is not unlikely, and there is much to be said in favor of her scheme. The importation of articles free of duty which we do not, and cannot manufacture, is not in conflict with the American system of protection to home industries. On the contrary it might prove highly beneficial to our people as well as to the Irish manufacturers, in giving our consumers cheap goods and the Irish producers a good market. Ultimately the tariff issue will resolve itself into a demand for a prohibitive tariff on articles which we manufacture, and an extremely low tariff, or none at all, on such articles or products as we need and cannot raise. Our existing national debt, large pension list, and extraordinary governmental expenses occasioned by the war, necessitate the raising of so much revenue as to make the plan impracticable at this time. However, there is not the slightest objection to Mrs. Parnell performing her missionary labors, which cannot have other than beneficial results in causing her fellow countrymen in America to take an interest in a question that will continue for many years to be among the most important in our national politics.

THE SUPREME JUDGESHIP.

The Austin Reveille, noticing the withdrawal of Judge D. C. McKenney, of Austin, as a possible candidate for Judge of the Supreme Court, states that "Judge Murphy, of Esmeralda, is being favorably spoken of for the place." It is useless for the Reveille to attempt to defeat Judge Hawley for the nomination with any of the present District Judges. The Republican party will not countenance such a movement, particularly when neither one of the District Judges have more ability or availability than Hawley, for the reason that the nomination and election of either of the District Judges would cause a vacancy which Governor Adams would fill by appointment, and the people having elected a Republican will not willingly consent to having a Democrat substituted for one half of the term.

The only allusion which Cleveland's letter makes to the protection of American labor is the declaration that the laboring classes "should be protected in their efforts peacefully to preserve their rights when endangered by capital." Now we should like for Mr. Cleveland or any other Democrat to tell us what obstacle now exists to workingmen peacefully preserving their rights when endangered by capital; and having done so, let him suggest the sort of statutory enactment he thinks necessary to accomplish that end. This is very thin gruel for brawny workingmen, who demand that they shall be protected in a continuance of reasonable rates of wages, which can only be accomplished by the protection of the manufacturing enterprises which give them employment. The sentence quoted is an insult to the working classes, in that it reflects upon their intelligence and suggests a sort of civil rights bill in their behalf, on the ground of their lack of capacity to protect themselves under existing laws. That is not the kind of protection they ask or desire. They have enough of that sort already. But that is all that Cleveland proposes to give them, and he is very careful in the same connection to put in the plea that the protection of labor and capital shall be equally considered, but only in regard to their relations towards each other. If all protective tariffs were abolished and the manufactories shut up, the relations existing between the two would still be the same, for labor and capital would both be thrown out of employ together. This evasion of the real question of the protection of American industry does not even possess the negative merit of artfulness. It is disingenuous to the last degree, and can deceive no workingman of ordinary intelligence.

The Connecticut Butlerites have introduced a novel feature into their political meetings. At Meriden on Wednesday the speeches were interspersed with dancing. The plan is a good one to secure the attendance of the young people, and combine business with pleasure as it were, but it may be overdone. Fancy, for instance, Cleveland dancing an Irish jig to reingratiate himself with the bolting rank and file of the Democracy, or Ben Butler performing an Ethiopian double shuffle to secure the negro vote. Of course this would be carrying the terpischorean portion of the entertainment too far, not only because of its undignified character but also on account of the necessarily unpleasant effect upon the audience during the heated term.

Colonel George Babcock, the boomer for Dr. McDonald at the Prohibition Convention, is not very enthusiastic concerning the outlook of the party to which he has attached himself. He does not think St John will carry a State, while the contest in California will depend much upon "the amount of financial aid that may be rendered to the State Executive Committee," which latter suggestion is a loud call for Dr. McDonald to come to the front with his Vinegar Bitters barrel. Colonel George is a thrifty patriot who don't propose to lose any money on the goods this year.

One Captain Renard, of Paris, claims to have at last solved the problem of aerial navigation, and its practical success is "only a question of time and money." We believe that the problem reached this stage long ago, but since then a good deal of time and money have been unsuccessfully expended upon its elucidation. Time and money will accomplish a great deal, but it is not always easy to tell how much of either or both may be needed.

Judge Hoffman has at last rendered one decision against the heathen Chinee. He has strictly construed the certificate clause of the amended Chinese Restriction Act, and holds that a Chinaman leaving our shores without the necessary certificate cannot return to them. For small favors let us be thankful in due proportion.

A son of Nowater, an Indian chief at the Pine Ridge agency, attempted to take the life of agent McGillicuddy because of an article published in a Chicago paper advising the Indians to do so. Who will now venture to dispute the power of the press when even the untutored savage yields to its civilizing influences.

The Democratic press commend Cleveland's letter for its brevity, and for scarcely anything else. Had it been as brief as Hendricks' it would have been correspondingly commendable. Like the cur whose tail was chopped off close up to the ears, it improved the purp but left mighty little life in him.

Referring to Republican politics in Washoe the Carson Index says:

It seems to be conceded that Hon. William Thompson will be nominated for State Senator.

By whom is it conceded?

Hendricks accepts the Democratic nomination with an indorsement of "the sum and substance" of the platform. He is too old a politician to undertake its discussion in detail.

Nothing, says the Baltimore American, at present in the world of politics is so plain as the marked and continuous improvement of Republican prospects.

The New York City car-drivers have formed a Blaine and Logan Club.

How Cleveland Would Become Popular.

Answering a correspondent, the Sun says: No doubt the best thing that Cleveland could do for the Democratic party would be to withdraw. If he should do this, and if the National Convention on being called together should nominate Thurman, every breach in the party would work together and carry Thurman into office by an enormous majority. But this is not to be expected. During Cleveland's term of public service his great care has been of himself, and having got the nomination he is not likely to resign it. Better to his taste a rousing defeat, and all it implies, than a moment of renunciation. Yet what a popular man Cleveland would make of himself by retiring now.

GROWING CROPS.

Reports of a Most Encouraging Character from the Agricultural Department.

The August report of the Statistician of the Agricultural Department on the condition of the growing crops, says: The condition of corn is higher than in any August since 1880. It has been exceeded but three times in ten years—1875, 1879 and 1880. There has been an improvement on the Pacific Coast and in some other States. Oats will average 94, and rye 97. Barley maintains a high condition and buckwheat promises a full crop. The prospect is reported for another large crop of potatoes. The apple crop will not be a very full one, as fruit has fallen, owing to Spring frosts. The peach crop is large in Delaware and Maryland, but not so good in the more northern latitudes and in western peach regions. No report has been received from the State agent in California. Oregon agents report that in the major part of the agricultural counties the crops are above the average. Wasco county has suffered from drouth, but this has not been general. The early Summer rains have insured good returns to farmers, and the State, from an agricultural point of view, is in better condition than ever before. The Washington Territory agent says: In the western part of the Territory considerable damage was done the crop of clover, which was being harvested, by rain. But for this disaster its condition would have been much better than usual. All small grain, vegetable and fruit crops throughout the Territory were greatly benefitted by the rain, notably Spring-sown wheat and rye.

A Clean Record, Public and Private.

A Sun's editorial says: Blaine, we are told, recognizes the propriety of a public demand that the office of President shall be filled by a man not only with a clean public record, but with a clean private character. This is well. It is precisely what we believe in, and what we supposed the Independent folks believed in, until we found some people lately beginning to argue that the private character of the President was a matter of comparative indifference. To say that it does not make any difference what a minister practices, so long as he preaches well, would not be regarded as a sound proposition. Does it accord with morality much better to hold that the people of the country should not be anywise concerned about the character of their President as a man, so long as his character as an officer is satisfactory? We think not. The Republican candidate has acted wisely in branding the calumny against his private character as a lie, instead of treating the falsehood with silence. The Democratic candidate ought to follow his example.

The Irish National League.

BOSTON, August 21.

The National Executive Committee of the Irish National League of America, has held two secret meetings here. In accordance with a resolution adopted at a previous meeting, delegating the power of selecting a National Council of seven, to the President, Mr. Reagan, they announced the following names: M V. Gannon, of Iowa; Michael Boland, of California; Timothy Maroney, of Louisiana; Thos Flattery, of Massachusetts; M. D. Holmes, of New Jersey; Judge J. G. Donnelly, of Wisconsin; and Hugh J. Carroll, of Rhode Island.

Looks Warlike.

A London Pekin dispatch of August 21st says: The French Consul lowered his flag at 1 o'clock to-day, and the interests of the French subjects are entrusted to the Russian Minister. China absolutely refuses to admit the French claims. Quong Li Yamer professes to be prepared for war, although France, they claim, is secretly hoping to involve the neutral powers in the quarrel.

Negotiations have been concluded between the Atlantic and Pacific Railroad companies and the Southern and Central Pacific companies of California, with a view of forming a close-working train service and traffic arrangement, extending from St. Louis over the St. Louis and San Francisco Railroad and from Atchison and Kansas City over the Atchison, Topeka and Santa Fe Railroad by way of the Atlantic and Pacific route to Albuquerque, New Mexico, to San Francisco and all points in California.

Norman B. Eaton, of the Civil Service Commission, has written a long letter to various communications received by him from Government employes asking for advice as to the payment by them of assessments for political purposes, the substance of which is that clerks are under no more obligations to pay than other citizens of the same means, and that they should pay or refuse to pay as they would feel it a duty as a private citizen.

The Republican State Central Committee of Wisconsin claims to have secured a promise from ex-Senator Conkling that he will speak in that State next month.

Hendricks' Letter.

INDIANAPOLIS, August 20.

The following is a copy of ex-Governor Hendricks' letter of acceptance of the Democratic nomination for Vice President:

INDIANAPOLIS, August 20.

GENTLEMEN:—I have the honor to acknowledge the receipt of your communication notifying me of my nomination by the Democratic Convention at Chicago as a candidate for the office of Vice President of the United States. I repeat what I said on another occasion, that it is a nomination which I had neither expected nor desired, and yet I recognize and appreciate the high honor done me by the Convention. The choice of such a body, pronounced with such unanimity and accompanied with so generous an expression of esteem and confidence, ought to outweigh all personal desire and preference of my own. It is with a deep sense of gratitude that I now accept the nomination, and to abide the judgment of my countrymen. I have examined with care the declaration of principles adopted by the Convention, a copy of which you submitted to me and in their sum and substance I heartily endorse and approve the same. I am, gentleman, your obedient servent.

(Signed): T. A. Hendricks,

To the Hon. William F. Vilas, Chairman, Nicholas M. Bell, Secretary, and the others of the committee of the National Democratic Convention.

A Merited Promotion.

NEW YORK, August 21.—President Arthur received this morning at the Fifth Avenue Hotel the officers of the Greely relief expedition, including Commander Schley, Commander Coffin, Lieutenant Emery, Chief Engineer Melville and a dozen others. Secretaries Chandler and Lincoln and Gen. Butler, who called to see the President, were present. Secretary Chandler informed Commander Schley that the President had decided to appoint him Chief of the Bureau of Equipment and Recruiting, in the place of Commodore Earl English, who commands the European squadron, with the office of Chief of Bureau in the Navy Department. He gets the rank of Commodore.

A HOME DRUGGIST TESTIFIES.

Popularity at home is not always the best test of merit, but we point proudly to the fact that no other medicine has won for itself such universal approbation in its own city, state, and country, and among all people, as

Ayer's Sarsaparilla.

The following letter from one of our best known Massachusetts Druggists should be of interest to every sufferer:—

RHEUMATISM. "Eight years ago I had an attack of Rheumatism, so severe that I could not move from the bed, or dress, without help. I tried several remedies without much if any relief, until I took AYER'S SARSAPARILLA, by the use of two bottles of which I was completely cured. Have sold large quantities of your SARSAPARILLA, and it still retains its wonderful popularity. The many notable cures it has effected in this vicinity convince me that it is the best blood medicine ever offered to the public. E. F. HARRIS."

River St., Buckland, Mass., May 13, 1882.

SALT RHEUM. GEORGE ANDREWS, overseer in the Lowell Carpet Corporation, was for over twenty years before his removal to Lowell afflicted with Salt Rheum in its worst form. Its ulcerations actually covered more than half the surface of his body and limbs. He was entirely cured by AYER'S SARSAPARILLA. See certificate in Ayer's Almanac for 1883.

L. W. Lee has his water pipe laid as far east as Lake street. It will take a week or ten days yet to reach his stock yards.

Quite a number of Republicans have signed a call for a meeting at the Court House to-night at 8 o'clock to discuss and suggest matters connected with the primaries to-morrow.

Senator Marker and would-be Senator Thompson were in Reno yesterday prospecting the political levels of the county seat. They discovered, no doubt, that Reno intends to have one of the State Senators from Washoe county.

The Italian lady and her little girl who were on the wagon that was run into by the cars at Vista, last Spring, are at Curcino's ranch above town dangerously ill with typhoid fever. They were brought in from a ranch on the meadows at a late hour Wednesday evening.

Notice is given to all persons who have obstructions of whatever nature on the Sullivan ditch to immediately remove the same in order that necessary improvements can be made by the owners. If said obstructions are not removed within one week from date action will be commenced through the proper legal channels to compel the enforcement of this order.

W. A. Donaldson, in former years a prominent fruit dealer at New castle, and well known in Reno, came up from San Francisco yesterday morning. Mr. Donaldson has had charge of the Truckee Lumber Company's box factory in San Francisco for the past six years. He is here in the interest of M. J. Keller, of Oakland, in hopes to do a little business and at the same time regain his failing health.

REPUBLICAN.

Reno, Aug. 21, 1884.

W. M. & L. Co's. Works.

The Washoe Mill and Lumber Company have received a lot of new and costly machinery which is being placed in their planing mill and box factory below town. The heaviest, most complicated and consequently most costly piece of machinery in the lot is a machine for manufacturing doors and window sashes. From its size and the amount of machinery there is in it, one would suppose it capable of manufacturing most anything. When this new machinery is in place the company will have a very complete mill, and will commence the manufacture of doors, sashes, blinds, boxes and turning of all kinds, all of which will necessarily give employment to a number of men.

Blackleg in Oregon.

The blackleg, or a disease supposed to be that, is causing great fatality in Wasco county, Oregon. The infection seems to be spreading and baffles the skill of the most experienced veterinary surgeons. Stock raisers in the vicinity are alarmed for the safety of their herds. Wasco county joins Grant county, which bounds Humboldt on the north, but cattle from Wasco are not driven this way to market, so there is not much danger of the disease getting into Nevada.

Stocking Their Ranch.

W. P. Noble and O. North, who recently purchased the Clover Valley ranch in Humboldt county of Evans Brothers, of Reno, and since added to their possession by purchase of 30,000 acres of land from the railroad company, are driving a herd of 4,000 head of cattle from Idaho to Clover Valley.

The N. & O.

The arrival and departure of the trains on the N. & O. gives an encouraging appearance to business about the depot. The trains were started to haul in a lot of wood and lumber at Oneida, but arrangements may be made whereby trains will be kept running right along for general business.

BERNICE BULLION.

Churchill's Promising Mining and Political Camp.

EDITOR JOURNAL:—Having a few leisure moments I will give you a short item in regard to the prospects of our little camp and where we are located. Bernice lies in the northeast corner of Churchill county, fifteen miles south of the Humboldt county line, on the Glen Alpine range, and nine miles directly east of the Humboldt salt marsh. We have a tri-weekly mail. Stages leave Lovelock's and Bernice Monday and Thursday mornings of each week, at 7 A. M., and arrive at these places on Tuesday and Friday afternoons. The stage line is owned and run by Peter West, of Lovelocks. Mr. West has the contract for the next two years. The distance between the two points is sixty-two miles. Our town at present can only boast of about a dozen houses, two stores, one saloon, one hotel, and one blacksmith shop. Williams & Co. run one store and saloon. W. A. Van-Reed displays a shingle for groceries, boots, shoes, clothing, confectionery and Yankee notions. The hotel is owned and run by R. H. Parker. There are but two ladies in the camp at present — Mrs. Parker, the hostess of the Parker House, and Mrs. G. B. Williams, who superintends the culinary department at the mine. The mill is running steadily on the Golden Crown ore. It has run about thirty days. The first fifteen day run the company shipped four bars of bullion valued at $4,500 and the prospects are as good for the same result at the next run. There are other mines in the district equally as good and perhaps better than the Golden Crown. I will mention the Wild Goose, owned by A. P. Healy, Lason and Jordon, and the Silver Ridge, owned by Hoyt and Chas. Gilbert. Fifty tons of first-class ore from the Wild Goose, worked at this mill, showed an average of $152 per ton; fifty tons of second-class ore yielded $72 per ton; twenty-five tons of ore from the Silver Ridge, treated at the same mill, showed a result of $127 per ton, and twenty-five tons, treated at Salt Lake, netted $72 per ton, after paying all expenses. The Oregon, owned by James Deveney, bids fair to equal either of the others. This mine is stripped the entire 1,500 feet and has an incline seventy-five feet deep, showing a vein of good ore at that depth. The Utah, joining the Oregon on the west, is owned by Capt. George A. Day and Dan Keeler. This and the Oregon are the same vein and both yield high grade ore. These two claims would make a fine property for some company to erect a ten-stamp mill on, and attract the attention of capitalists if they were conversant with the country and the advantages this district possesses for working ore of any kind. Next are the Great Western and Alta, owned by W. W. Williams and Capt. James Ganey. The G. W. has an incline some thirty feet and it shows some very high grade ore. The Alta has a tunnel some seventy-five feet. Capt. Ganey, unlike the district in one respect, is going through the mountain instead of up on it. Next in order is the Lime Ridge, owned by M. W. Hoyt. The croppings of this ledge assay away up in the hundreds. Mr. Hoyt has started a tunnel which will cut his ledge at a considerable depth. Further down in the foothills are immense deposits of antimony, which were worked years ago with good results. The whole surrounding country abounds with wood, water and grass, and when it becomes known that a little five-stamp mill is turning out from $8,000 to $10,000 of bullion it will attract the attention of capitalists, and some one will take hold of these mines and Bernice will be a camp of no small significance. At present there are about fifty men in the camp, and with a careful assay of the whole community, shows a result of, Blaine 90 per cent., Butler 8 per cent and Cleveland 2 per cent. Yours respectfully,

AJAX.

Death of Brennan.

James Brennan, the man who was accidentally shot by Curley Hogan in a saloon at Carson on the night of the circus, died at his home in Gold Hill Wednesday afternoon. Tuesday morning Hogan, who is a resident of Washoe Valley, went to Carson and surrendered himself to the authorities and was placed under $1,000 bonds to await further proceedings. He says his pistol fell to the floor and was discharged by the concussion. There seems to be no doubt but that the affair was purely accidental. Brennan, the unfortunate victim, was a native of Bangor, Maine, aged thirty-three years. He was bright and ambitious, and so popular on the Comstock that he was elected County Recorder, filling the office one term preceding the present incumbent.

The Reno Camp Meeting.

Commencing August 27th and continuing till September 8th the Adventists will hold camp meetings in Reno. This will be the first camp meeting held in the State of Nevada. The V. & T. R. R. Co. will carry passengers at half rates from all points along the line.

Wadsworth Warblings.

By the Republican's Special Warbler.

Andy Russell returned from Truckee Sunday morning.

Mrs. Jas. Velsir, of Los Angeles, is visiting friends at this place.

Mrs. R. L. Fuller went below Sunday evening for a two months' visit to relatives at Sacramento and the Bay.

Several car loads of Reno soil were unloaded on the library grounds this week. The grounds are to be turned into a lawn and trees set out around the building.

Jas. Welch and his comedy company gave a performance in this place Monday evening. It was well attended and everybody seemed well pleased with it. Jim is a favorite wherever he goes.

A whole freight crew were discharged from this division last Saturday morning—too much circus; glad we didn't go

The painting in the new hotel is nearly completed. Dick Fuller has surpassed himself, and his ornamental work in the dining room and parlor cannot be excelled.

The pugilistic fever has again broken out among the boys, and when they put on the gloves they go it in true J. L. Sullivan style.

There is talk of a grand ball in the new hotel dining room as soon as it can be used for the purpose.

Mr. McMasters, the Indian agent at Pyramid Lake reservation, is to retire as soon as a successor can be sent to take his place.

Jim Gregory has bought the old freight house. Four hundred dollars was the price paid for it.

A Fresh Candidate.

One of our prominent aspirants for political honors was out in the country last Sunday on a short election tour. At one of his resting places he encountered a voter whom he thought he knew, and proceeded to pave his way immediately to a request for a vote. "How d'ye do?" was his first query and before the voter could reply he was startled and surprised by a fusilade of questions after this fashion: "How is your crop?" "How is your wife?" "How is your baby?" "Well" was the blunt reply, "I have put in no crop this year; as I am a single man I have no wife; consequently have no baby; and I think you are a little too fresh anyway!" Exit candidate in search of salt.

POLITICAL.

PLATFORM

—OF THE—

NATIONAL REPUBLICAN PARTY

Adopted by the National Republican Convention at Chicago.

The Republicans of the United States, in National Convention assembled, renew their allegiance to the principles upon which they have triumphed in six successive Presidential elections and congratulate the American people on the attainment of so many results in legislation and administration, by which the Republican party has, after saving the Union, done so much to render its institutions just, equal and beneficent, the safeguard of liberty and the embodiment of the best thought and highest purposes of our citizens. The Republican party has gained its strength by a quick and faithful response to the demands of the people for freedom and equality of all men for a united nation, assuring the rights of all citizens, for the elevation of labor, for an honest currency, for purity in legislation and for integrity and accountability in all the departments of the Government, and it accepts anew the duty of leading in the work of progress and reform.

We lament the death of President Garfield, whose sound statesmanship, long conspicuous in Congress, gave promise of a strong and successful administration, a promise fully realized during the short period of his office as President of the United States. His distinguished success in war and peace has endeared him to the hearts of the American people. In the administration of President Arthur we recognize a wise, conservative and patriotic policy, under which the country has been blessed with remarkable prosperity. We believe his eminent services are entitled to and will receive the hearty approval of every citizen.

It is the first duty of a good Government to protect the rights and promote the interests of its own people. The largest diversity of industry is most productive of general prosperity and the comfort and independence of the people, the taxpayers, without injuring the laborer or the great productive interests of the country.

We recognize the importance of sheep husbandry in the United States, the serious depression which it is now experiencing, and the danger threatening its future prosperity, and we therefore respect the demands of the representatives of this important agricultural interest for the readjustment of the duty upon foreign wool, in order that such industry shall have full and adequate protection. We therefore demand that the imposition of duties on foreign imports shall be made not for revenue only, but that in raising the requisite revenue for the Government such duties shall be so levied as to afford security to our diversified industries and protection to the rights and wages of the laborer, to the end that active and intelligent labor, as well as capital, may have its just reward, and the laboring man his full share in the national prosperity.

Against the so-called economic system of the Democratic party, which would degrade our labor to the foreign standard, we enter our earnest protest. The Democratic party has failed completely to relieve the people of the burden of unnecessary taxation by a wise reduction of the surplus. The Republican party pledges itself to correct the irregularities of the tariff and reduce the surplus not by the vicious and indiscriminate process of horizontal reduction, but by such methods as will relieve the taxpayer without injuring the laborer or the great productive interests of the country. The Republican party favors a policy which shall keep us from entangling alliances with foreign nations and which gives us the right to expect that foreign nations shall refrain from meddling in American affairs. The policy which seeks peace can trade with all Powers, but especially with those of the Western Hemisphere.

We demand the restoration of our navy to its old-time strength and efficiency, that it may in any sea protect the rights of American citizens and the interests of American commerce, and we call upon Congress to remove the burdens under which American shipping has been depressed, so that it may again be true that we have a commerce.

It is the duty of Congress to enact such laws as shall promptly and effectually suppress the system of polygamy within our Territories, and divorce the political from the ecclesiastical power of the so-called Mormon Church, and that the laws so enacted should be rigidly enforced by the civil authorities, if possible, and by the military, if need be.

The people of the United States, in their organized capacity, constitute a nation and not a mere confederacy of States. The National Government is supreme within the sphere of its national duty, but the States have reserved rights which should be faithfully maintained.

We have always recommended the best money known to the civilized world, and we urge that efforts should be made to unite all the commercial nations in the establishment of an international standard, which shall fix for all the relative value of gold and silver coinage.

The regulations of commerce with foreign nations and between the States is one of the most important prerogatives of the general Government, and the Republican party distinctly announces its purpose to support such legislation as will fully and efficiently carry out the constitutional power of Congress over interstate commerce.

The principle of the public regulation of railroad corporations is a wise and salutary one for the protection of all classes of the people, and we favor legislation that shall prevent unjust discrimination and excessive charges for transportation, and that shall secure to the people and the railways alike the fair and equal protection of the laws.

We favor the establishment of a national bureau of labor, the enforcement of the eight-hour law, and a wise and judicious system of general education by adequate appropriations from the national revenue where the same is needed.

We believe that everywhere the protection accorded to citizens of American birth must be secured to citizens by American adoption, and we favor the settlement of national differences by international arbitration.

The Republican party, having its birth in a hatred of slave labor and a desire that all men may be truly free and equal, is unalterably opposed to placing our workingmen in competition with any form of servile labor, whether at home or abroad. In this spirit we denounce the importation of contract labor, whether from Europe or Asia, as an offense against the spirit of American institutions, and we pledge ourselves to sustain the present law restricting Chinese immigration and to provide such further legislation as is necessary to carry out its purposes.

The reform of the civil service auspiciously begun under Republican administration should be completed by the further extension of the reform system already established by law to all grades of the service to which it is applicable. The spirit and purpose of the reform should be observed in all executive appointments and all laws at variance with the object of existing reform legislation should be repealed, to the end that the dangers to free institutions which lurk in the power of official patronage may be wisely and effectively avoided.

The public lands are a heritage of the people of the United States and should be reserved, as far as possible, for small holdings by actual settlers. We are opposed to the acquisition of large tracts of these lands by corporations or individuals, especially where such holdings are in the hands of non-resident aliens, and we will endeavor to obtain such legislation as will tend to correct this evil. We demand of Congress the speedy forfeiture of all land grants which have lapsed by reason of non-compliance with the acts of incorporation, in all cases where there has been no attempt in good faith to perform the conditions of such grants.

The perpetuity of our institutions rests upon the maintaining of a free ballot, honest count and correct returns. We denounce the fraud and violence practiced by the Democratic party in the Southern States, by which the will of the voter is defeated, as dangerous to the preservation of our free institutions, and we solemnly arraign the Democratic party as being the guilty recipient of the fruits of such fraud and violence. We extend to the Republicans of the South, regardless of their former party affiliations, our cordial sympathy, and pledge to them our most earnest efforts to promote the passage of such legislation as will secure to every citizen of whatever race and color the full and complete recognition, possession and exercise of his civil and political rights.

Appointments by the President to offices in the Territories should be made from bona fide citizens and residents of the Territories wherein they are to serve.

The grateful thanks of the American people are due to the Union soldiers and sailors of the late war, and the Republican party stands pledged to provide suitable pension for all who were disabled and for the widows and orphans of those who died in the war. The Republican party also pledges itself to the repeal of the limitation contained in the Arrears of Pensions Act of 1879, so that all invalid soldiers shall share alike and their pensions begin within the date of disability or discharge and not with the date of the application.

THE PLATFORM

OF THE REPUBLICAN PARTY

OF THE STATE OF NEVADA,

Adopted at the State Convention Held at Virginia City on April 30, 1884.

The Republican party of Nevada in convention assembled reaffirm their devotion to the principles of the great National Republican party, and reiterates its faith in its ability to carry on the General Government in the same spirit of justice, intelligence and progress, respect for human rights and regard for the interests and dignity of labor which have characterized its history for more than a quarter of a century.

Resolved, That the wise, considerate and judicious administration of President Arthur commends itself to the entire confidence and respect of the American people.

Resolved, That the Republican party has at all times been, and still is, the friend and protector of labor, and as such considers the advent of the Chinese race into this country dangerous and inimical to the deserved success and prosperity of American laborers, and still pledges itself to advocate and favor such a line of policy as will protect and foster the interests of labor, and while the recent law of Congress restricting the immigration of the Chinese has approved itself to the people, we demand that it be supplemented by such further legislation as may not only be necessary to attain the object in view, but also prohibit the wholesale importation of persons on contract of labor from any country.

Resolved, That in view of the increased prosperity of the people at large in a great degree consequent upon the wise and settled policy of the Government, we deem it impolitic at present to attempt any change in the revenue and tariff laws now in force.

Resolved, That the reduction in duties on imported wools, made by the Act of Congress in March, 1883, resulted in paralyzing the business of wool growing in the United States and in transferring the same to foreign nations, and we demand the restoration of the wool tariff of 1867 at the earliest possible moment.

Resolved, That gold and silver have co-existed and formed the monetary circulation of the world since the origin of human society, that the agitation against silver threatening to destroy its value and use as money is a blunder and a crime, which can only result in a destruction of values without any compensation, doubling the purchasing power of gold for the exclusive benefit of the interest bearing capital of the country at the expense of bread winners, diminishing their wages and injuring the producing and taxpaying classes. We declare that silver being a product of our labor and capital as well as gold, its demonetization is unnecessary, unwise, unjust, and pernicious and that the present law ordaining the coinage of silver as a full legal tender should be left undisturbed.

Resolved, That we demand of Congress the exercise of all its constitutional power for the speedy suppression of polygamy in the Territory of Utah.

Resolved, That we demand that every citizen shall be protected in his constitutional right to cast a free ballot and have it honestly counted.

Resolved, That we approve of all legislation which tends to promote fidelity and efficiency in the civil service of the country.

Resolved, That we renew our demand for the establishment by the General Government of a postal telegraph service.

Resolved, That the great act by the Republican party of the emancipation of the people of African descent, a people held for a century in the bondage of slavery and ignorance, has imposed a solemn obligation upon the National Government to aid in the cost of educating the freedmen and their children so that they shall become fit to discharge the duties of American citizenship.

Resolved, That monopolies oppressing the people, or unfairly discriminating against them, are wrong in principle and should not be tolerated. To that end we regard with favor the proposed enactment of a law by Congress establishing a National Railroad Commission to investigate the oppressions of railroad corporations, or other legislative action having for its object the relief of the people.

Resolved, That the public domain is the heritage of the American people, and we are in favor of the enactment of such laws as will forbid the alienation of the soil by foreign corporations and foreign landlords.

Resolved, That in the opinion of this Convention the success of the Republican party would be assured by the nomination of James G. Blaine for President; yet, without instructing the delegates this day appointed, but imposing full confidence in their integrity and wisdom, we place on record our firm conviction that they will meet the unanimous sentiment of the Republican party of this State if they support the candidature of Mr. Blaine in the National Republican Convention, and we hereby pledge the Republican party of Nevada to support the nominees of that Convention.

and BLASTING

POWDER

Of superior quality, fresh from the mills. It is being constantly received and transported into the interior, is delivered to the consumer within a few days of the time of its manufacture, and is in every way

Superior to Any Other Powder

In market. We have been awarded successively

Three Gold Medals!

At the MECHANICS' INSTITUTE and the STATE AGRICULTURAL SOCIETY for the superioty of our products over all others. We call attention to our

Hercules Powder,

Which combines all the force of other strong explosives now in use, and the lifting force of the very

BEST BLASTING POWDER

Thus making it vastly superior to any other compound now in use.

Circular containing a full description of this Powder can be obtained on application at the office or of any of our Agents.
